

## INDUSTRY EXPERIENCED IT & TECHNOLOGY RESOURCES

Specialists in placing quality candidates in the Financial, Insurance and Professional Services Industries

### Financial Services

DataCede Staffing knows the key technology people in the Financial Services industry. We seem to know everyone and if we don't then it's just a matter of time before we do. DCS works with the best and the brightest of the Financial Services sector. We have spent the last two decades networking and that experience gives us an edge over other firms. Banks and brokerages, large and small, depend on us everyday.

### Insurance Services

Our roots are grounded in the Insurance industry. We have the largest number of IT technologists with CPCU's working for us than any other company we know of and they are ready to be deployed to help you with your scaling challenges. We know the industry players and they know us. We have one of the largest independent databases of qualified candidates we know or who work for us.

### Professional Services

We support the best International consultants and development shops with our technologists and consultants. We outpace the competition with a deep understanding of the changing landscape and the flexibility needed to support the demands of the industry. The largest names in Consulting, Accounting, Technology and Government turn to us when they need the best.

## Six Key Specializations

Our staff is highly trained and competent in their chosen fields. While we staff to our client's diverse projects and requirements, we always have a complement of technical skills in these six areas:

# DataCede Staffing's Seven Solutions

## Rent Our Staff

Renting our existing staff to scale your projects is economical, time saving and will drive the results you demand. At any given time we have several major project initiatives underway. Our staff is highly trained and competent in their chosen fields.

## Rent a SWAT Team

We are always ready to deploy one of our highly sought after SWAT teams. The DataCede SWAT (Strategic Workout Assessment Team) unit can be a very powerful shot in the arm for projects that have fallen behind or for executives that need help in a specific area of their business.

## Payrolling Services

If you have a need for technology professionals on an indirect basis we can help reduce your administrative duties and liabilities. Our flexible payrolling services assist you in avoiding the potential risks associated with using on-site contingent labor.

## Outsourcing

Our IT outsourcing services affords CIOs and CTOs the opportunity to retain control over IT strategies while benefiting from reduced operating costs and risks. Using a mid-sized shop like ours, you get all of the services and technologies of the big guys but with personalized services and controls only found with experienced operators like us.

## Recruitment

Staying ahead in the fast-moving world of competition and internal demands means that you need a partner who knows the major players in the market. While many flaunt their databases, the best recruitment is knowing your candidates and their prior performance. That's where we excel and it makes all of the difference in the world to find the very best fit for your position.

## Planning & Modeling

As an added service to our clients, our consulting division can provide staff projection and cost analysis by utilizing sophisticated resource modeling tools. We help you model your staffing and resource needs in a way that will make your CEO and CFO take notice.

## CIO & CTO Search

For over 20 years, our staff has assisted corporations in finding world-class leadership teams. We expedite your search process by leveraging our access to a large number of leading technology executives in our industry sectors. Our CIO specialization assures that you will have the top talent in Financial, Insurance and Professional Services verticals. Our focus allows us to continually track talent in our well known industry sectors.

DataCede Staffing grew out of the need to supply the best talent in the industry, providing staff to DataCede LLC and its growing client base. Formed in 2011, we attracted some of the most talented and experienced executives in the technology sector. Being closely aligned to our roots as a major developer of custom software applications, we employ a large and growing complement of technology professionals in the Financial, Insurance and Professional Services sectors.
